

Formed In early 2025, Oshawa's PsyChlo offer up a unique blend of indie rock, peppered with pop infused grooves and catchy melodies.
Their self-titled, debut 5 song EP and their first full length album titled “Controlled Chaos” are now streaming on all platforms.
Their music videos for the songs “Little Me” , “Reflections”, “Mental For Your Metal” and “C'mon Baby “ are now on YouTube and were shot and produced by the band.
PsyChlo were crowned the champions, and “Local Legends” of the Rockstalgia music festival Main Stage Challenge battle of the bands in July, 2026, and were nominated for a Dreams Music Award in the category of best emerging band in the fall of that year.
Members Chloé Taylor, Jay Lovell, Dan Bromell, and Elvis Lewis have all honed their craft and cut their teeth in the local music scene. Chloé as a member of alt-indy band Nonsanto, Dan bringing it full force with local hard rock faves Suckershot, Elvis as the backbone of widely popular India based band Haven and Jay as a member of the once popular signed/touring band Odin Red.
They now come together to create the sonic sugar known as PsyChlo.
